

# Blue Sky Adventures

"The Experts in Philmont Travel!"

## Alpine Village at UCCS

- All High Adventure participants will stay at Alpine Village Apartments located on the spectacular campus of the University of Colorado at Colorado Springs.
- The campus is on a bluff that overlooks the city of Colorado Springs with the Garden of the Gods and majestic Pike's Peak in the background! This is not your average college setting!
- Every person will have their own room and bed with two shared bathrooms and a common room in each apartment. No more than 4 scouts per apartment!
- Most parents agree that visiting a college campus is an important program element since most of the scouts will be making college decisions in the near future.
- All participants will have access to the brand new University Recreation Center. Amenities include: pool, 30 person hot tub, 2 basketball courts, and bouldering wall!
- Other amenities include: TV lounge, laundry facilities, and computer room with internet access.
- Blue Sky Adventures has exclusive access to an entire apartment building so that the scouts will not be housed with any other students or faculty.

- Breakfast will be served in the newly renovated Lodge at UCCS. With a large fireplace and rustic décor, this building is more like a high end ski lodge than a cafeteria. Most important, the food is excellent and all you can eat!

**Make UCCS your Colorado headquarters for the start of your Philmont adventure!!!**
